

PUBLIC NOTICE
CAMBRIDGE TOWNSHIP
SNOW REMOVAL POLICY FOR
CAMBRIDGE TOWNSHIP
2022-2023 SNOW SEASON

The goal of Cambridge Township is to have all township roads passable within a reasonable amount of time after a three inch or more snowfall has stopped.

Please remember the **BLUE OR AMBER** flashing lights identify the snow removal equipment as emergency vehicles and motorists should maintain a proper distance from the rear.

The township does not assure a completely bare road and will not sand entire sections of roadway. The sanding of intersections, hills and curves are a priority. Users of the system are reminded to exercise caution and to realize that the legal speed limit may not be reasonable in certain weather conditions.

The township usually will not dispatch snowplows until the snowfall has stopped, with exceptions possible during periods of extended snowfalls. Sanding will be done at problem locations.

Mailboxes damaged during snow removal will be evaluated on a case by case basis. Only those mailboxes that are properly built; located and installed in accordance with Minnesota Department of Transportation Standards and which were damaged by actual contact with snow removal equipment will be repaired at township expense. Residents are cautioned that it is **unlawful to plow snow from private driveways onto or across any public roadway.**

Also, from Township Road Ordinance Section 17: Parking shall be prohibited on all town roads and easements on, after or during a snowfall accumulation of 2" or more, until such times as the road is plowed edge to edge. Vehicles left on Cambridge Township roads or easements in violation of this section are subject to towing at the owner's expense.
